

Vohs, Mead, & Goode, 2006, Science.

Bolded information differs between the printed and corrected versions. None of the corrections change the interpretation or meaning of the results.

**Page 1155, 3rd column, 2nd full paragraph. In the text, “Participants in the high-money condition gathered fewer pencils than did participants in the low-money condition [$t(32) = 2.75$, $P < 0.02$; Cohen’s $d = 0.81$] or those in the control condition [$t(32) = 2.13$, $P < 0.05$; Cohen’s $d = 1.23$] (Table 1).”

The correct reporting is this: “Participants in the high-money condition gathered fewer pencils than did participants in the **control** condition [$t(32) = 2.13$, $p < .05$; Cohen’s $d = .81$] or those in the **low-money** condition [$t(32) = 2.75$, $P < .02$; Cohen’s $d = 1.23$] (Table 1).”

**Page 1155, 3rd column, 4th full paragraph. In the text, “Participants primed with money donated significantly less money to the student fund than participants not primed with money [$t(38) = 2.13$, $P < 0.05$; Cohen’s $d = 0.64$] (Table 1).”

The correct reporting is, “Participants primed with money donated significantly less money to the student fund than participants not primed with money [$t(42) = 2.13$, $P < 0.05$; Cohen’s $d = 0.64$] (Table 1).”
