

CARLSON SCHOOL CURRICULUM OVERVIEW

PILLAR 1

PEOPLE & PLANET

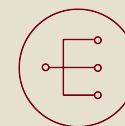

By the time you graduate, you'll not only have the technical skills to succeed in your chosen career, you'll be prepared to lead with purpose. The Carlson School will provide you with the tools you need to make a positive impact on the world.

PILLAR 2

DATA & DECISIONS

In today's world, every business professional needs a foundation in data and analytics. You will learn how to analyze information and make essential business decisions in a complex world.

PILLAR 3

FOUNDATIONS & IMPACT

To succeed in business, you need a strong foundation. The Carlson School will give you the foundation you need to effectively collaborate with your future colleagues, and choose the major that's best for you.

SIGNATURE EXPERIENCES

International Experience

To thrive in a complex world, you'll also develop a global perspective, completing a portion of your studies abroad - with options in more than 30 countries.

Impact Lab

During your first two years, you'll learn how to problem-solve creatively for impact by working with a real business, nonprofit or social enterprise to solve a real problem

Impact Core

You'll spend your second year taking eight foundational courses as part of a cohort. Build strong relationships with your classmates - and future peers in the business community - while developing core business knowledge.
