• Required credits to graduate with this degree: 120
• Required credits within the major: 71 to 85
• Degree: Bachelor of Science in Business

The international business co-major supports a primary major by providing students with exposure to international breadth in areas such as economics and globalization and deepens their knowledge of a given region by a semester study abroad, language proficiency, and coursework specific to where they are studying. The student learns how business is done within a culture and the importance of understanding the nuances of working across multiple cultures. Students who desire to work in international business will often begin in their primary major and with experience and language skills, move into roles where they have responsibility for working with partners or offices internationally.
