SELECTED CONFERENCE AND EVENT ORGANIZATIONS

[CONVENE Conference](#) – (Annual)

Founded the conference as the Academic Director of Medical Industry Leadership Institute (2018),

Lead conference organizer since 2018

The Carlson School's Convene Conference is a thought-leadership conference focused on the intersection of healthcare, technology, and data analytics as major solutions to healthcare issues. The annual conference brings together leaders from the provider, payer, technology and regulatory sectors who address how innovations can transform access, quality, and health equity. The conference is hosted by the Business Advancement Center for Health since January 2022, and priorly by the Medical Industry Leadership Institute (September 2017-December 2021). Conference themes for each year were:

- Data, Technology, & Connectedness in Health, April 2023 (140 in-person, 271 virtual registrants)
- Consumerization of Healthcare & Digital Health, April 2022 (429 registrants, virtual)

- Health Equity: The “Hill we Climb”, April 2021 (238 registrants, virtual)
- ROI of AI, September 2019 (206 registrants, in-person)
- Advanced Analytics and Reimbursement, September 2018, (190 registrants, in-person)

University of Minnesota Interdisciplinary Health Data Competition – (Annual)

Founded the competition as the Academic Director of Medical Industry Leadership Institute (2020)

Lead competition organizer since 2020

The University of Minnesota Interdisciplinary Health Data Competition began in 2020 to promote interdisciplinary collaboration on using data to address current healthcare challenges. In this competition, students complete an exploratory analysis of specified datasets to provide innovative solutions and insights using data science tools and methodologies. This event encourages graduate students across all disciplines at the University of Minnesota to practice, enhance, and showcase their understanding of real-world healthcare problems and their abilities to solve them with innovative use of data science.

This competition is led by the Business Advancement Center for Health (BACH) in collaboration with the Carlson School of Management, College of Pharmacy, Institute for Health Informatics, School of Nursing, and School of Public Health.

- Measuring quality and disparities in healthcare (March 2023) – 74 students; 22 interdisciplinary teams from 13 colleges/schools; 25 faculty, industry and community judges
- Patient experience in a hospital setting (March 2022) – 75 students; 19 interdisciplinary teams from 9 colleges/schools; 21 faculty, industry and community judges
- Health disparities and community impact of COVID-19 (March 2021) - 94 students; 24 interdisciplinary teams from 12 colleges/schools; 21 faculty, industry and community judges
- Innovative insights in prescription drug use (March 2020) 66 students, 16 interdisciplinary teams from 10 colleges/schools

Health Sector Leaders Consortium – (Annual)

Founded the consortium as the Founding Director of the Business Advancement Center for Health

Lead organizer since 2022

This event brings together industry leaders who are disrupting the status quo of business in healthcare who discuss how industry trends, innovation, and cross-sector engagement are driving solutions to address value, access, and health equity.

OTHER ACADEMIC/INDUSTRY/COMMUNITY EVENTS ORGANIZED/HOSTED/MODERATED

(not including internal, faculty and student-focused seminars)

A Conversation on Social Drivers of Health (May 2023)

This dialogue convened colleagues from the University of Minnesota, as well as stakeholders from the health insurance, healthcare provider, state, policy, non-profits and community-based organizations. In addition to presenting the University of Minnesota led research project on a financial innovation to address sustainable funding for social drivers of health initiatives, the forum featured innovative partnership and funding models from the Greater Minnesota Housing Fund and the Green and Healthy Homes Initiatives.

Empowering Healthcare Researchers with Data Featuring MN Community Measurement *(November 2022)*

Healthcare data is abundant but accessing this information can be challenging for researchers. MN Community Measurement (MNCM) is a nonprofit organization that plays an important role in Minnesota as a trusted source of information on health care quality, cost, and equity.

340B Program Perspectives: Insight on Current Contract Pharmacy Issues *(May 2022)*

This panel reviewed recent legal and policy questions under discussion in the Courts and Congress and examined how stakeholders are responding to the ever-evolving 340B program landscape.

The Vision for Medicare on The Post-Pandemic Era Featuring Dr. Meena Seshamani, Director, Center for Medicare *(December 2021)*

Dr. Meena Seshamani shared her vision for the future of Medicare, and the challenges and opportunities the industry faces in the post-pandemic era of health.

The Landscape of Nonprofit Health Plans in Minnesota *(November 2021)*

Several non-profit health plan leadership discussed the landscape of nonprofit health plans in Minnesota, the impact of nonprofit health plans, industry trends, and the employment outlook.

The Changing Market of Biosimilars *(October 2021)*

Biologics have revolutionized the treatment of care, but often at high prices. This panel discussion introduced the biosimilars landscape and discussed coverage and pricing of biosimilars, provider-level factors influencing uptake, legislative challenges, and manufacturer perspectives.

The Current State & Future of Telemedicine *(November 2020)*

Panelists discussed the current state and future of the rapidly evolving telemedicine and digital health industry.

Diversity and Inclusion In Medical Technology Innovation *(November 6, 2020)*

Panelists discussed how to overcome barriers for entering the healthcare industry and encourage innovation within underrepresented groups in order to diversify the pool of innovators.

A Critical Collaboration Between a Pharmacy Benefit Manager & Health Plan During Covid-19 Pandemic *(October 2020)*

During the COVID-19 pandemic, changes to legislative mandates required pharmacy benefit managers and payers to change how they manage pharmaceutical claims. The panelists shared how their organizations worked together to make decisions on utilization management and adapted to emerging clinical evidence and regulatory guidance.

Covid-19 Analytics Symposium *(October 2020)*

A panel of faculty researchers from multiple disciplines shared their work related to COVID-19 including the COVID-19 Hospitalization Tracking Project; social determinants of health and resilience in communities during COVID-19; disparities and continuity of care during COVID-19; the impact of COVID-19 on cancer patients and oncology physicians; and removing bias from ML algorithms to ensure proper medical attention and care for all during COVID-19.

The ROI of Investing in Social Determinants of Health *(September 2020)*

This event explored how business investments in the drivers of social determinants of health can lead to reductions in overall health care costs, and discussed how research and programs can target consumer health behavior and outcomes.

The Coventor: Its Development, Implications, & Lessons Learned (*August 2020*)

The leaders of the Coventor team shared the story of the Coventor's development, discussed key factors to its success, examine implications moving forward, and reflected on the lessons learned.

Future of healthcare: what will it look like, who will lead innovation (*May 2020*)

Panelists representing academic, payer, provider and non-profit organizations discussed their efforts responding to the pandemic and how the pandemic changed the healthcare system and its vulnerabilities.

The Social and Business Value of Measuring and Investing in Social Determinant of Health (*April 2020*)

Industry experts from several payer and provider organizations examined unique best practices and discussed the social & business value of measuring and addressing social determinants of health.

The Constitutionality of the ACA: Current Status, Implications, and Next Steps (*March 2020*)

This event featured constitutional issues, implications and potential resolutions raised by the federal district court decision that the minimum essential coverage provision of the Affordable Care Act was unconstitutional.

Combatting Minnesota's Opioid Epidemic (*October 2019*)

This forum included federal and state policy makers; local, tribal, state health department and judicial representatives; state legislators, healthcare and payer systems; and recovery organizations.
