Greetings from the Graduate Business Career Center,

It is my pleasure to share the 2021 Employment Report for our Master of Human Resources and Industrial Relations students here at the Carlson School of Management. This year brought the continued challenge of a mostly virtual recruiting experience with our office. We continued to be so impressed with our students’ ability to be nimble in their approach to employer engagement and driven in their perseverance in the job search. We are grateful to our employers for the continued support of our students and we were consistently impressed with the creative ways employers chose to connect with students.

We are so pleased to report that during a year of disruption and ambiguity, 98% of our MHRIR graduates accepted job offers within six months after graduation. The average starting base salary is $82,500. As more students are looking at quality of life when they assess offers, they come to us with questions about benefits packages. This is the third year we tracked vacation/paid time off for our master’s business programs, and we saw an average of 3.5 weeks PTO across companies and industries. Starting this fall, we are also tracking the ability to work remotely or within a hybrid model. We hope that by gathering this data we continue to support students and employers in the recruiting process.

The GBCC held more than 675 employer meetings, sent out nearly 600 tailored resume books, and organized 284 events across nine programs during the past year. Our coaches managed more than 4,000 coaching appointments and delivered dozens of workshops. We strive to not only prepare our students well but also deliver excellent customer service to our company partners. As one recruiter remarked, “We only recruit from Carlson. The experience was excellent. Our team really enjoys working with the GBCC and finds them to be very helpful. Appreciate the partnership!”

As a school, Carlson is truly trying to embody the slogan, business as a force for good. We are consistently pleased to see how our students display this in their interests to work for companies that are making an impact in the world and community. As a staff we are consistently trying to embody business as a force for good in the way we work with our students, ensuring every student feels included and supported. We are investing more in early career exploration, and we are ensuring that all coaches, graduating students, and recruiting partners have the opportunity to go through bias training. This past year, we also reflected on our large-scale programming and created a process to ensure our workshops speak to and support all students. Our hope is that each student can project their best and most authentic version of themselves when they engage with employers. We are excited for all our recruiting partners to continue to connect with and welcome our multi-faceted business students.

As always, thank you for your ongoing partnership! Go Maroon & Gold!
98% of 2021 graduates accepted employment offers within six months after graduation.

100% with U.S. work authorization
95% without U.S. work authorization

Base Salary*

Median
$82,500

Range**
