

# ACCT 6100 Financial Statement Analysis

## Executive Summary

**Course:** ACCT 6100 Financial Statement Analysis  
**Credits:** 4 credits  
**Prerequisites:** MBA 6030

### **Description**

This course examines the current accounting standards utilized for financial statement preparation and how knowledge of how financial statements are prepared helps professional analysts to better understand a company.

### **Objectives**

Students will be able to understand and analyze any company's financial statements similar to professional analysts.

### **Learning Outcomes**

A more in depth and clearer understanding of current U.S. accounting standards and how they play a pivotal role in an analysis of a firm for investment and credit decisions by managers and investors.
